HT-5 UV Laser Marking Machine	
Main Configuration	
<p>EZCAD Controller& Software (original, not Lite), support Lightburn Double Red Dot for Adjust the focus Foot Switch, motorized Z 700mm tower Working size: 150x150MM (optional, max can be 300X300mm) Laser Power: 5W Air cooled Laser source: JPT (best brand source in China) Sino brand scanning head, SG7110 model with Si mirrors and dual red dot</p>	
	
Price:	
Machine price (door to door air delivered)	USD6,100
Parts with machine	1pcs chuck rotary for tumblers 1pcs quality safety glasses (OD6), Software (EZCAD2) with settings And other all necessary parts with machine
Detailed Parameters:	
Effective Working Area	150mmx150mm (optional, max can be 300X300mm, for glass marking, no recommend no bigger than 150X150mm)
Laser Power	5W
Worktable	Fixed high quality aluminum worktable
Wave Length	355nm
Computer System	WINDOWS 7/8/10/11 32/64bits, you can use Mac if you use Lightburn
Minimum Character	0.15mm
Minimum Linear Width	0.01mm
Cooling way	AIR Cooling
Maxi Marking Speed	5000mm/s (for glass marking, no recommend faster than 200mm/s)
Data Transfer:	USB2.0 transmission
Control System	BJCZ Controller
Graphic Format Supported:	DXF/PLT and some AI BMP, DST, DWG, LAS, DXP
Compatible Software	EZCAD2/Lightburn
Total Power	800W (AC220V 50Hz /AC110V 50Hz)
Package Size	78*64*54cm for machine(56KGS)

Warranty Terms	TWO years, and we have after sale service engineers, they provide life time technical support. If any parts have quality problem, we will send the parts to you for free, and we bear all costs because of it.	
Training Terms	One to one group chat technical support. Life time service.	
Promotion Items	Two hours free 1 on 1 Laser Coaching, Native English speaking coach. Here you can take the opportunity to learn more about your new laser via 1 on 1 video coaching. Whether you want help getting the laser set up and running or fine tuning your settings, setting up rotaries or a new lens, artwork or just burning materials with the right parameter settings. Experience with Lightburn / EzCad2 / EzCad3 / Graphics work / Fiber laser / UV Laser / Co2 galvo and gantry Lasers	
Payment terms	You can pay via PayPal/Credit Card/Wire transfer. Wire transfer takes longer time (around 1-3days), but has lowest fees (around 30USD). All works for us. If you want pay via credit card/PayPal (around 2.99% fees), we have to use Alibaba. If you want pay us via bank transfer, we can do it with/without Alibaba. I recommend wire transfer (on Alibaba) for less fees. both domestic and international wire transfer works
